

ANJIYUCHU

# Anji Yuchu Chasen Collection

## White bamboo 100-prong chasen

This product

- Material: Aged white bamboo (over 5 years old)
- Tine Count: 76 tines, evenly distributed
- Handle Diameter: 28–32 mm
- Total Length: Approximately 115 mm
- Head Diameter: Approximately 60 mm
- Surface Finish: Hand-polished, smooth edges
- Packaging: Traditional wrapping or custom gift box
- Best For: All-purpose (suitable for both koicha/thick tea and usucha/thin tea)
- Features: Medium tine count for quick and even foaming, balanced

## Black Shin Chasen

This product • **Material:** Aged black bamboo (over 4 years old) • **Tine Count:** 64 tines, evenly distributed • **Handle Diameter:** 23–24 mm • **Total Length:** Approximately 115 mm • **Head Diameter:** Approximately 60 mm • **Surface Finish:** Hand-polished, smooth edges • **Packaging:** Traditional wrapping or custom gift box

- **Best For:** Koicha (thick tea / こいちゃ) and formal tea gatherings
- **Features:** Premium selected black bamboo with superior craftsmanship; full, symmetrical, and precisely curved tines for rich, velvety tea texture, dense and long-lasting fine foam; certified or high-level tea ceremony dedicated whisk, offering excellent control and elegance in preparation
- **Applicable Scenarios:** Formal tea ceremonies, tea gatherings/events, tea ceremony examinations/assessments, competitions, and advanced tea rooms

## Long-handle Black bamboo chasen

This product • **Material:** Aged black bamboo (over 3 years old) • **Tine Count:** 48 tines, evenly distributed • **Handle Diameter:** 20–22 mm • **Total Length:** Approximately 165 mm • **Head Diameter:** Approximately 45 mm • **Surface Finish:** Hand-polished, smooth edges • **Packaging:** Traditional wrapping or custom gift box

- **Best For:** Koicha (thick tea / こいちゃ) and deep-bowl tea preparation
- **Features:** Extended long handle (typically 15 cm+) for stable, controlled grip and powerful whisking; minimizes wobbling during slow, continuous stirring required for thick paste; ideal for thorough blending in deep bowls (e.g., tenmoku, cylindrical, or high-walled bowls). Black bamboo (also known as purple bamboo / murasakidake or kurotake) provides superior strength, elasticity, and durability compared to white bamboo, resulting in finer texture and longer-lasting performance
- **Applicable Scenarios:** Formal tea ceremonies, tea ceremony instruction/teaching, competition demonstrations, and traditional deep-bowl matcha preparation

## Black bamboo 120-prong chasen

This product

- Material: Aged Black bamboo (over 5 years old)
- Tine Count: 80 tines, evenly distributed
- Handle Diameter: 32–34 mm
- Total Length: Approximately 115 mm
- Head Diameter: Approximately 60 mm
- Surface Finish: Hand-polished, smooth edges
- Packaging: Traditional wrapping or custom gift box
- Best For: Koicha (thick tea / こいちや)
- Features: Highest tine density in this range (80 tines) for fine, dense, and silkv foam: ideal for tea ceremony demonstrations, high-
