

## DTF PRINTING INK

Code:4

Price: **2500/KG**

This is high quality ink. It also certified by OEK-TEX. In this white ink has good quality Titanium Dioxide (TiO), Which prevent the printhead clogging. Hongsam color ink (especially for DTF and pigment-based printing) is known for producing vivid and vibrant colors because of a combination of high-quality ingredients and precise formulation.

## DTF PRINTING FILM

Code:3

Price: **5500/PS**

High-quality PET DTF transfer film with a double matte coating for enhanced ink absorption and anti-slip performance. Compatible with both hot peel and cold peel methods, it ensures vibrant color output, smooth peeling, and strong adhesion to fabric. Ideal for 60 cm DTF printers and suitable for cotton, polyester, blends, and more.

## HOT MELT DTF POWDER

Code:2

Price: **950/KG**

Premium-quality hot melt powder designed for strong bonding in DTF transfers. Ensures excellent adhesion, soft hand feel, and long-lasting durability on cotton, polyester, blends, and more. Melts evenly and works perfectly with DTF films for vibrant, crack-resistant prints

## DTF PRINTER CLEANING SOLUTION
