CAPULET

# Autumn 2024

Welcome.

We know having the right furniture pieces and décor items is essential to your sales success or design objectives. Our goal at Capulet is to offer you products you'd be proud to work with. Here's how we can help you achieve the look you work to create.

This Autumn we're proud to present four collections.

These collections each have a different look and feel, and each will be appropriate for a different audience. We've created the collections with elegance, high-end appeal and coordination in mind.

Here's a quick look at what these collections are and who they are designed for.

## **Scandinavian Collection**

## Freight charges

Once an order is packed, we calculate the freight cost based on the dimension and weight of the item being delivered. We charge the actual freight cost, which is the same amount the freight company charges. If you'd like to know details before an item ships, please get in touch for an estimate.

## Order collection

Please let us know if you'd like to collect your order. We'll confirm when it's ready for collection.

## Delivery time

Freight times vary depending on the size of the items and the location it is being delivered to. We can provide tracking information upon request.

## Back orders

Providing that a style has not been discontinued, we will add a back order into our system, and it will ship once it comes back into stock. Updates on shipping dates can be provided upon request.

## Claims

Please check your delivery as soon as you receive it. We require notification of any damages within 7 days of receiving the order, with photographs and in writing. Claims after this will not be accepted. Please send an email with details of the damage to [sales@capulet.co.nz](mailto:sales@capulet.co.nz).
