

DUTY BOOTS

21210 Danner

Price: \$240.00

Made in the USA, the Acadia features Danner's famous stitchdown construction, providing a more stable platform underfoot and superior durability. This boot has a waterproof, breathable GORE-TEX lining and a combination upper of 1000 Denier nylon and full-grain leather. The Vibram Kletterlift outsole provides superior shock absorption and great traction on both wet and dry surfaces.

2090 Rocky

Price: \$145.00

The exterior on this Rocky Men's Jump Boot has an adequate amount of durability and ruggedness so that it is able to withstand the most unforgiving working conditions. The upper has been built from premium full-grain black leather. These 10-inch duty boots have a side zipper that aids in getting them on/off rapidly. In addition to these features, there is a polishable toe so that you can keep these boots looking like they are in tiptop shape. A great deal of the paratrooper boot's strength can be attributed to its Goodyear welt construction. Eventually, all duty boots begin to wear down; with this construction, these boots can be repaired with no trouble and they'll revert back to their original hardness. The contoured EVA footbed provides cushioning that
