

# Driftless Climbing Holds

## Product Catalog

Simple holds with incredible versatility

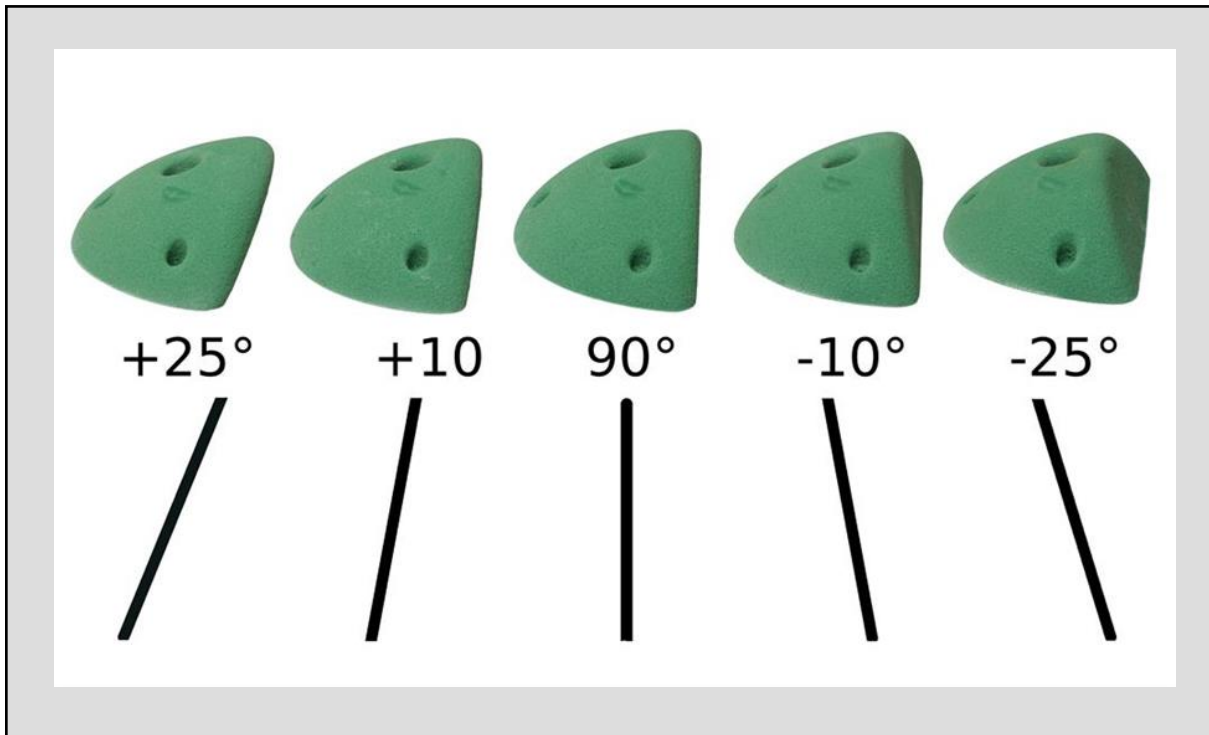

Driftless Holds are available in four industry-matched colors: Red, Blue, Green and Yellow

*Poured with pride in Mazomanie, Wisconsin.*

## Infinite Edges: Functional System Holds

**Bolt them, screw them, block them or slot them: Unleash your route setter's potential.**

**This series comes in multiple size options in sets of 5 holds with precise face angles of 65, 80, 90, 100 and 115 degrees. Offered in both dual and full textures.**

**From below, these holds look identical; making competition routes difficult to read.**

**Bolt or screw on; washers in every mounting point**

## Feet: The foundation of a great route.

Pictured: Small, Medium, and Large Feet

**Offered in 3 sizes, each with 5 different face angles, all in full and dual texture for a total of 30 unique foot holds**

**Complete set of 30 feet for \$95.99**

**Shown Above: All three sizes, in dual texture**

## Chiral Pinches: What does that mean?

def. "A geometric property of a structure that cannot be superimposed on its mirror image"

Specific ergonomically designed left and right handed pairs. Flip the holds and right becomes left and left becomes right; changing the thumb catch and altering the difficulty.

Left and right paired pinches, not identical but mirror image duplicates.

Sets of 6 holds, 3 pairs: A flat edge, 10 degrees in-cut and 10 degrees sloped.

## Dual Textured Holds

Much of our dual texture holds are slick as snot. However, the edges have bomber friction, making these holds ideal for forcing movement.

## Pinch Blocks: Train pinch strength with our parallel-sided polyurethane blocks.

2, 3 and 4 inch blocks.

Suspend weights for systematic and quantifiable strength training.

## Bolts

Purchase in packs of 25 or 100, high quality steel bolts. Available in 1.5, 2, 2.5 and 3 inch lengths.

## Custom, Multi-Layered Holds
