

# Dunlouise Native Angus Semen Catalogue

Find us on Facebook: Dunlouise Aberdeen Angus and at [dunlouiseargus.com](http://dunlouiseargus.com)

Welcome to the Dunlouse Native Angus Semen Catalogue. Here you will find information on the bulls we have available for national and international semen export, but also the ability to make embryos with for international shipping.

Whilst all our bulls have subtle different characteristics and features, with Native Angus you can expect superb calving ease and a shorter gestation period with progeny that have an exceptional fleshing ability and can convert second rate forage into first rate beef. All of our cattle are purely grass finished.

Native Angus herald all the traits that made Angus the most successful beef breed worldwide- a large vital organ capacity, climate adaptability, good maternal instincts and super calf vigour.

All semen is available directly through us. Please contact us on [dunlouseangus@gmail.com](mailto:dunlouseangus@gmail.com)  
Prices available upon request.

# Dunlouis Royalty X782

The brand new boy on the block! A very exciting outcross bull showing superb structural correctness, good feet and a masculine muscling pattern. Our first bull available from the famous Ruths of Tillyfour family, he boasts some of the finest Native Angus in his pedigree.

Our Ruths are famous cattle for square, deep bodies in the maternal line, Royalty would be a good choice for those looking to add depth and width to their bloodlines.

Dunlouse Rose, dam of Dunlouse Royalty

Dunlouse Rose, dam of Royalty, photographed at 9.5 years old with her 5 month old calf at foot, demonstrates the deep, wide, feminine body typical of the Ruths.

# Dunlouisie Jipsey Earl E161

Jipsey Earl is a proven sire with the ability to stamp his progeny with a predictable and pleasing classic Aberdeen Angus look.

He boasts a distinctive, classically Angus head with very correct leg structure, both of which feature prominently in his offspring. A linebred sire, known for stamping his unique mark on progeny, he was also a very docile, easy to handle gentleman. A mature weight of 790kg, he produces offspring with super marbling quality as well as brilliant milking daughters. An all-round complete sire.

Dunlouse Ruth, a daughter of Jipsey Earl

A three-time Pathfinder Sire (the only bull in the UK ever to achieve this status), he was awarded for being a breed elite bull for calving ease, birth weight and milk production. Our most successful bull to date, he has progeny in over a dozen countries and continues to be an unparalleled success.

Cannahars Jipsey Yoko, maternal granddam of Jipsey Earl

Jipsey Earl calves can be expected to be born 7-8 days early with superb vigour and a fantastic fleshing ability.

"The best cow-maker I have ever evaluated" Harrison O'Connor, Saddlebutte Ranch, Montana

# Dunlouis Mr Brexit V706

Dunlouis Mr Brexit is from the very rare Miss Burgess family. Females from the Miss Burgess have very rarely been available for purchase so we are pleased to offer these genetics through the male line.

Dunlouse Miss Bonny, dam of Dunlouse Mr Brexit

Daughter of Mr Brexit, Dunlouse Corrie Bloom

Mr Brexit has proven already to be a successful sire in many pedigree and commercial herds internationally. At a mature weight of 820kg, he demonstrates the best of Native Angus phenotype from his broad head to his thick hindquarters.

Mr Brexit is an ideal choice for those looking for moderate, easy fleshing cattle.

# Dunlouis Jipsey Uprising U688

Dunlouis Jipsey Uprising boasts a pedigree of many big Native Angus names including Cannahars Jipsey Yoko, Dunlouis Cortachy Boy and the very successful Evesund of Dupplin. With a mature weight of 930kg, Jipsey Uprising is a heavier, higher frame score bull demonstrating good locomotion and growth potential.

Jipsey Uprising is an ideal choice for those looking for a slightly larger, longer progeny with an increased carcass size, whilst retaining the traditional Native Angus beef quality.

Jipsey Uprising's maternal grandsire, Dunlouse Cortachy Boy, was part of the successful group of Native Angus bulls promoted by Genex. With a mature weight of 930kg also, Jipsey Uprising shares a lot of the same phenotypical features that made Cortachy Boy a success.

The famous Evesund of Dupplin was a double winner of the Royal Highland Show in Edinburgh in the late 1970's and features in a lot of successful Native Angus pedigrees.

# Dunlouis Red Eddard M496

Red Native Angus are extremely sought after but rare to find, which is part of the reason that Red Eddard continues to be a great success in both pedigree and commercial herds. Known for his consistent progeny production and superb temperament, Red Eddard continued to actively work until he was 10 years old.

Red Eddard has progeny over 4 continents and is used repeatedly by breeders for his moderate, lively progeny which mature into solid, well marbled animals whatever the climate or challenges. Solid leg structure and easy fleshing ability contributed to Red Eddard's longevity which is seen in his progeny.

Red Eddard's maternal grandsire is the second-generation Genex proven sire, Dunlouis Cup Bearer. He is a perfect blend of the best of the Cherry Blossom and Jipsey families, also working until the age of 10 years old.

Dunlouis Cup Bearer, maternal grandsire of Red Eddard, photographed working at age 8.

Red Eddard is a great choice for those looking to add structural soundness and a gentle temperament to their herd.
