TOUCHSTONE

BY EVERWILD DESIGNS

HIDDEN MESSAGE JEWELRY

About

We developed the Touchstone collections as a way to keep personal messages close while maintaining a wee bit of privacy. It's beautiful jewelry that contains 'hidden' messages spelled out in the Braille language set into rings, bracelets and pendants with diamonds and other semi-precious stones that you can just pass your finger over to 'read'. From Beloved to Badass, you can keep your sentiments close while keeping them just private enough. Makes a 'touching' gift.

EVERWILD

Everwild Designs, founded by Irina Rachow in April 2022, is a lifestyle jewelry company committed to crafting 100% original, high-quality designs while fostering positivity and connection to the things we love. The brand's mission is to preserve the planet's vanishing natural habitats one acre at a time through iconic, sustainably made jewelry, ensuring our pastures and plains, forests and oceans remain Ever Wild.

Our Craft & Values:

- Every piece begins with a hand-drawn sketch, meticulously refined into a CAD image, then cast in either solid gold or sterling silver with 18k gold plating or Rhodium
- Each design is finished with hand-set diamonds, crystals, or other gems, followed by a final, perfect polish
- We strive for sustainability throughout the entire creation process while designing jewelry inspired by nature's beauty and our varied lifestyles
- Each piece purchased 'adopts' acreage of land to be kept as wilderness forever

Our Collections:

- **PickleBelle:** Playful and spirited designs for pickleball enthusiasts who love the sport
- **LoveMatch:** Celebrating the passion and connection found in tennis
- **Saints & Saviors:** Providing messages of inspiration, protection, and spiritual connection
- **Everwild:** Capturing the power and beauty of animal talismans and the natural world
- **Touchstone:** Braille-inspired pieces meant to be a personal touchpoint or reminder of core values

Our Impact:

- Through partnership with the National Wildlife Federation, we have preserved over 2,300 acres of natural spaces
- The Touchstone brand specifically supports the Braille Institute, aiding its vital mission
- Everyone who wears these pieces or gifts them to loved ones becomes part of a larger narrative—jewelry made with love, hope, and positivity that helps preserve the footprint of our natural areas
