DESIGNED BY A VETERINARIAN, FOR VETERINARY PRACTICES

Equipment selection informed by 20 years of clinical experience.

A CATALOGUE BUILT AROUND CLINICAL REALITY

After 20 years in veterinary practice, Dr. Rhett Mortenson understands that equipment decisions are not merely inventory decisions. They affect workflow, staff efficiency, procedure scheduling, patient safety and the level of care a hospital can provide.

House Hippo was created to make professional veterinary equipment more accessible through practical pricing, direct sourcing and meaningful after-sales support.

**OUR CATALOGUE IS ORGANIZED
THE WAY A VETERINARIAN THINKS -
NOT THE WAY A WAREHOUSE STORES INVENTORY.**

**VETERINARIAN-SELECTED EQUIPMENT. PRACTICAL PRICING.
SUPPORT WHEN YOUR PRACTICE NEEDS IT.**

THE HOUSE HIPPO DIFFERENCE

Warranty protection and loaner support - before you shop

EQUIPMENT SUPPORT DESIGNED AROUND CLINICAL REALITY

Equipment downtime can disrupt appointments, delay procedures, affect revenue and interfere with patient care. Eligible House Hippo equipment therefore includes access to our loaner program throughout the warranty period.

LOANER PROGRAM

- Available for eligible equipment
- No rental charge during covered manufacturing-defect repairs
- Subject to loaner availability
- Customer pays outbound and return loaner shipping costs

WARRANTY AT A GLANCE

- Six-month manufacturing-defect warranty on most new equipment
- Extended warranty: 10% of the pre-tax purchase price
- 18 months total coverage on qualifying products
- Extended coverage maintains loaner-program eligibility

**VETERINARIAN-SELECTED EQUIPMENT. PRACTICAL PRICING.
SUPPORT WHEN YOUR PRACTICE NEEDS IT.**

Product exceptions apply, including dental kits, otoscopes and the patient scale.
