Blue Time Teacher - Educational Watch

31.95

The Time Teacher system is based on three combined elements:

The hands are labelled "HOUR" and "MINUTE", so children always know which is which.

All the minutes are shown on the dial, from 0 to 59, in both 12-hour and 24-hour format. No counting needed.

A colour-coded system divides the dial into sections. Even when the hour hand is between two numbers, the colour shows the exact hour.

Purple Time Teacher - Educational Watch

31.95

The Time Teacher system is based on three combined elements:

The hands are labelled "HOUR" and "MINUTE", so children always know which is which.

All the minutes are shown on the dial, from 0 to 59, in both 12-hour and 24-hour format. No counting needed.

A colour-coded system divides the dial into sections. Even when the hour hand is between two numbers, the colour shows the exact hour.

Pink Time Teacher - Educational Watch

The Time Teacher system is based on three combined elements:

The hands are labelled "HOUR" and "MINUTE", so children always know which is which.

All the minutes are shown on the dial, from 0 to 59, in both 12-hour and 24-hour format. No counting needed.

A colour-coded system divides the dial into sections. Even when the hour hand is between two numbers, the colour shows the exact hour.

Pink and Turquoise Classic Time Teacher - Educational Watch

31.95

The dial design combines three elements that make telling the time easier:

The large numbers help children quickly identify the hour.

The 24-hour format helps them connect traditional time-telling with the full-day format.
