## Basic In-Ground Fence System 25 acre

### PetSafe® In-Ground Fence™

pet containment systems provide your pet with freedom and safety while spending a fraction of the cost of traditional fencing. It's easy to install, reliable, and safe. With proper training it is a very effective way to keep your dog safely in your yard. The collar picks up the signal from the buried wire and alerts your pet he has reached the boundary.

Item No.			Price
13260			\$199.99

## PetSafe Stubborn Dog In-Ground Fence Collar, Red

Your dog is smart, and sometimes with those smarts comes a little extra persistence and determination. The correction level is a little stronger on this receiver collar than our other in-ground fence collars to help recapture your dog attention when they spot that squirrel or bunny in your neighbor's yard. The collar has 4 levels of adjustable static correction and a tone plus vibration mode.

Item No.			Price
13050			\$95.99

## 20 ga. Pet Containment Wire, 500 ft. Roll

This covers up to 1/3 acre per spool. The length of wire needed will vary due to amount of twisted wire and the layout you select. A waterproof connection is needed for proper performance when adding additional boundary wire.

Item No.			Price
13288			\$15.89

## Elite Outdoor Bark Control, Birdhouse

Tastefully disguised as a birdhouse,

the Elite Outdoor Bark Control has an internal microphone that picks up the sound of your dog barking, then sends an ultrasonic tone to correct his behavior. The tone persists 3 seconds after your dog barks and then is silent again until it detects another bark. This weatherproof device is our premium outdoor bark control device because it comes with 2 built-in digital timers. The automatic timers work like an alarm clock, turning the unit on and off at specific time to help your dog from becoming desensitized to the ultrasonic tone, and to conserve battery life. Your dog will quickly learn to associate his barking with the sound, and most dogs curb excessive barking within 2 weeks.
