Building Pigeon Lofts Legally

\$42.00

This book was created to help those who plan on building or remodeling a Racing Pigeon Loft, but I know of no reason why this book would not help any pigeon fancier. Here is the introduction of the book, which tells you a bit about the author, Lonnie Patterson. I have built many types of buildings since building my first pigeon cage on

Acrobats of the Air By James Graham

\$26.50

The original Acrobats of the Air (1933) was one of the first comprehensive treatises on the age-old hobby of breeding and flying Roller pigeons. This 2015 edition consolidates material contained in the 1933, 1941, and 1944 editions of that book, and also includes much later correspondence with the main author not previously published. As such, it provides access to obscure resource material for contemporary students of the history of the breed.

***** NBRC BANDS *****

"There will be no price increase in 2027; the cost of next year's bands will remain the same as the past few years. If you want to pre-order a particular number series or a specific letter, this will be the time to do so. Letter and number bands are distributed to members on a "first-come, first-serve" basis, so unless you make your request early, it may not be possible to obtain your preferred choice of identification."
