# Salomon Rocker 122 Ski

Size: **160** Color: **Black**

Size: **150** Color: **Black**

## **Powder days are for business and pleasure.**

You believe the best powder days are for both business and pleasure; the Salomon Rocker2 122 is an extension of the same school of thought. The subtle Twin Rocker and Full Woodcore make this fat ski super playful and responsive so you can tackle deep powder fields and natural features with clean, fluid lines.

- The playful Twin Rocker uses a long, low rocker shape at the tip and tail to maximize your ability to surf, spin, pivot, and float like a cork in the deep stuff, and it maintains a long contact zone on edge so you can get back to the lift
- A Full Woodcore from tail to tip makes this ski super stable and responsive, giving you the necessary confidence to push the envelope
- The Edgy Monocoque structure provides precision edge grip and efficiently transfers energy from skier to snow, making this ski feel like an extension of your body
- Honey comb structure in the tip and tail makes the rockered extremities light as a feather so you can spin like a top with less inertia
- Total Edge Reinforcement incorporates fiber reinforcement directly on the edges for increased durability and edge grip
- Thicker edges increase shock resistance and durability so you can don't have to worry about hammering your edges when you throw down a park lap at the end of the day
- Edge Free tip and tail further reduces swing weight and ensures you will never hook a tip again
- 142mm in the tip, 122mm underfoot, and 132mm at the tail mean this ski has been fattened up to slaughter the deepest days of the season

## Salomon Rocker 122 Ski

Price: \$799.99 **35% Off, Sale Price \$487.49**

### **Powder days are for business and pleasure.**

You believe the best powder days are for both business and pleasure; the Salomon Rocker2 122 is an extension of the same school of thought. ## Armada JJ Ski

Price: \$674.95

### **The powder pack's alpha male.**

Armada's JJ Ski has made a name for itself as a true leader of the powder pack. This ski has been doped up for powder, but it's also stacked with features that enable it to gobble down crud and hardpack. If you want a ski that will put a smile on your face day in and day out regardless of the conditions, you just found it.

- Armada's EST Freeride Rocker features the perfect blend of rocker and positive underfoot camber, so you float when the flakes fall and carve the hardpack like an ice sculptor
- The Hybrid Ultralight Core is made from lightweight
