

Sensory Direct

2015/16

Guide to Sensory Products

Welcome to our new catalogue for 2015-16

Sensory Direct have been developing and manufacturing weighted therapy products in the UK since 2005. We are the preferred supplier to many schools, therapists, charities & NHS Trusts, in addition to countless parents and carers.

The products we manufacture have been CE tested and registered with the Medical Healthcare & Regulatory Authority in the UK and our aim is to design and manufacture high quality products which are safe, effective and value for money.

With these aims in mind we have sourced a range of quality products for use in the home, school, clinic, sensory room or anywhere you may need them. As parents of an Autistic son with profound sensory needs we understand the need for good quality products, reasonably priced and delivered quickly to your door - most orders are despatched to you within 2-3 working days.

This catalogue shows a wide variety of the products we stock - we are growing all the time so please visit www.sensorydirect.com to see the full range and new products.

We welcome your feedback and ideas for new products.....please get in touch by email or telephone.

Best wishes

Andrew & Anjee Caws

How to Order

- Via our website www.sensorydirect.com : This is the fastest and easiest way to order ensuring your goods are despatched to you in the quickest possible time. Payments can be made by credit card or bank transfer.
- Telephone : please call 01905 670500 - option 1 to speak to our sales team.
- Purchase Order : Schools, NHS Trusts, Charities and Healthcare Professionals can place a Purchase Order. Purchase orders can be emailed, faxed or posted.
- Online Account : visit www.sensorydirect.com and register an account with us - once approved, you can then place a Purchase Order online.
- Prices exclude VAT, however many products are eligible for VAT exemption (see back cover for more details).

A Quick Guide to Sensory Integration

Sensory integration is the ability to receive, process and make use of information from the world around us. It allows us to make an appropriate, adaptive response to meet the demands of the environment. For most of us this is occurring all the time without us having to think about it – we are not even aware that it is happening!

In addition to the five external senses of Sight, Hearing, Smell, Taste & Touch (the Tactile sense), there are two lesser known Internal Senses :

- Vestibular – this is our sense of movement & balance which comes from tiny receptors in the inner ear. It tells us if we are moving, how fast and in what direction. It also tells us where our body is in relation to the ground (gravity).
- Proprioception – this is our sense of body awareness and position. It tells us where our body and body parts are without having to look at them (when you close your eyes you still know where your limbs are). Tiny receptors in our joints, muscles and ligaments sense information and send it to the brain.

Children actively seek out activities that provide sensory experience of movement and body position such as jumping, swinging and spinning. It is perfectly natural for children to enjoy movement and sensations that promote development and organise the brain.

For some children (and adults) the senses don't integrate properly which can make everyday activities and tasks problematic. This is a recognised medical condition called Sensory Processing Disorder (SPD).

SPD can display itself in many different forms and the daily issues faced by those who suffer from it differs from person to person. In this brochure we offer some products which may be useful as part of a SENSORY DIET. Many of these solutions come from personal experience and from talking to other parents, carers and professionals over the past ten years.

We thoroughly recommend that you consult a qualified Occupational Therapist when constructing a suitable sensory diet. Everyone is different and what works for one person may not be suitable for someone else.

Some children (and adults) with SPD are SENSORY SEEKING and it has been found that weight and deep pressure can be beneficial to sensory seekers.

Some signs of impaired PROPRIOCEPTION

- Seeking out movement – excessive jumping, running, crashing, hanging, pulling and pushing
- Craves bearhugs, rough play and being squeezed
- Using excessive force (or not enough force) on fine motor activities such as dressing, writing, stringing beads etc
- Chewing on clothing and other objects
- Poor posture and under developed muscle tone
- Difficulty settling at night and interrupted sleep
- Poor motor planning
- Un coordinated movement

Some signs of an impaired VESTIBULAR sense

- Constantly “on the go”
- Cannot sit still and fidgets excessively
- Difficulty concentrating and remaining “on task”
- Craves fast movement such as spinning (and never gets dizzy)
- Uncoordinated and may appear clumsy
- Poor concentration
- Closely linked to Auditory sense and therefore maybe the reason for sensitivity to certain noises such as hand driers, vacuum cleaners etc

Some signs of TACTILE sensitivity

- Dislike of certain food textures
- Dislike of labels and seams in clothes
- Averse to haircuts, hair washing and showers
- Likes to bite and chew on clothes and other objects
- Likes messy play

There are different types of touch pressure – LIGHT TOUCH (such as lightly stroking the skin) can be distressing for someone with SPD. DEEP PRESSURE such as a tight hug stimulates the proprioceptive system and can be comforting. VIBRATION – can be comforting for some children with SPD.

The symptoms describes above are not exhaustive and tend to be displayed by those that are SENSORY SEEKING. Other children maybe sensory averse and may try to avoid activities such as climbing, jumping, spinning etc as they find such activities distressing.

You may have noticed that all these senses are closely linked and that some signs of sensory issues are common to more than one of the senses. For example sensory seeking children who cannot sit still, fidget excessively and like vigorous play are likely to have Proprioceptive, Vestibular and Tactile sensitivities.

Weighted Blanket - Adjustable

Weighted blankets are a safe and effective way of helping sensory seeking children and adults calm their body for sleep.

Weighted blankets can.....

- promote a calming effect
- encourage relaxation and better sleep
- provide a safe and effective therapeutic solution
- relieve anxiety and ease transitions
- prevent melt-downs and repetitive behaviours

The weighted pocket blanket has interchangeable weights making it the most flexible and durable blanket available. The calming weight is contained in uniquely designed tamper proof pockets ensuring even weight distribution. As your child grows simply add more weight.

Machine washable at 60 degrees.

A range of protective covers available.

Code	Blanket weight	Approximate User weight	Price
WBP25NAV	2.5kg	3-4 stone (19-25kg)	£108.95
WBP30NAV	3.0kg	4-5 stone (25-32kg)	£112.95
WBP36NAV	3.6kg	5-6 stone (32-38kg)	£116.95
WBP45NAV	4.5kg	7-9 stone (45-57kg)	£120.95
WBP60NAV	6.0kg	10-13 stone (64-83kg)	£126.95
WBP70NAV	7.0kg	13 stone + (83kg +)	£132.95

Large Weighted Blanket

Large Weighted Pocket Blanket measuring 200cm x 135cm (single duvet size). Uses the interchangeable pocket system to enable weight to be increased or reduced as needed.

Ideal for use at night for older children and adults. - a safe and effective way of helping sensory seeking children and adults calm their body for sleep. Weighted blankets can relieve anxiety, ease transitions and promote a calming effect.

Washable at 60 degrees C. CE tested and MHRA registered (Class 1 Medical device)

A range of fire retardant covers are available.

Eligible for VAT exemption

Code	Blanket weight	User weight	Price

XLB70NAV	7.0kg	13-16 stone (83-104 kg)	£143.95
XLB80NAV	8.0kg	16 stone+ (104 kg +)	£148.95

"My son slept all night for the first time in years, now that we have a weighted blanket it worked a treat!"

Classic Weighted Blankets

Our original weighted blanket with weights sewn into small individual cells, making these blankets ideal for wrapping around the shoulders or using in a sensory room.

Also great on a bed - large or small. The weight in the blankets applies deep pressure to the touch receptors in the muscles, joints and ligaments helping the individual feel more in tune with their body and limbs imparting a soothing and calming effect.

Measures 140cm x 110cm. CE approved and registered as a Class 1 Medical Device with the MHRA.
Machine washable at 40degrees C

Available in Blue, Green or Red as a stock item. Other colours can be made on request. Other weights can be made on request - please call for a quote.

Eligible for VAT Exemption

Code	Blanket weight	User weight	Price
OWB25	2.5kg	3-4 stone (18 - 25kg)	£110.95
OWB30	3.0kg	4-5 stone (25-32 kg)	£113.95
OWB36	3.6kg	5-6 stone (32-38 kg)	£116.95

OWB70	7.0kg	13 stone + (83kg +)	£134.95

Wipe Clean (Fire Retardant) Weighted Blanket

Made to the same high specification as our classic blanket, these new blankets are made from a wipe clean material for easy cleaning and care.

The blankets are fire retardant and have been independently tested to comply to BBS5852 (part 1 : 1979) and BS7175 (part 3 : 1989)

Weighted blankets can ...

- promote a calming effect
- encourage relaxation and better sleep
- relieve anxiety and ease transistions
- prevent melt-downs and repetitive behaviours

Weighted Lap Pads

Lap Pads apply calming deep pressure to the lap and upper legs whilst the user is sitting down making them ideal for use in the classroom, at reading time, at the table, in the car etc. The weight has a calming effect helping attention span and reducing excessive fidgeting.

Also available in fire retardant materials (BS5852 (part 1 : 1979) & BS7175 (part 3 : 1989)). As well as being fire retardant these lap pads are made of a material that is water resistant making them easy to care for and wipe clean. Ideal for use in school or at the dinner table.

Available in 2 weights - 1kg for children, 2kg for older children and adults

CE approved. Class 1 Medical Device

ELIGIBLE FOR VAT EXEMPTION

FRB20LPP	2kg	Fire retardant / Wipe clean	£47.95

Weighted Jacket

The deep pressure provided by weighted jackets has a "calming and organising" effect on the body's proprioceptive system. Recommended by OTs for use in the classroom to increase attention span and reduce fidgeting. They can also be used at home or out and about to ease anxiety and help prevent melt downs.

Designed and made in the UK, our jackets have weight pockets on the shoulders giving deep pressure where it's really needed. Further weight can be added around the body.

Available in Fleece or Shell - looking good with or without weights!

Colours available Navy Blue, Bottle Green & Burgundy Red. ELIGIBLE FOR VAT EXEMPTION

This product is a CE approved Class 1 Medical Device

CE Marking on product is a Manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

Weighted Hoody

The Weighted Hoody is designed to provide all the therapeutic benefits of a weighted jacket in a cool, wearable style. The deep pressure provided has a calming and organising effect on the bodys proprioceptive system.

The inner lining of our Hoodies contains a total of 8 pockets which are strategically placed for the insertion of weights - discreetly located on the shoulders, around the waist and in the hood. All weights are removable for easy washing.

Pair up with our Deep Pressure Vest for the ultimate combination of weight and deep pressure

Deep Pressure "Bearhug" Vest

Our compression vest applies deep pressure and proprioceptive feedback to the body and shoulders. No weight is used - deep pressure is applied to the body by the tight wrapping of the vest around the body. Challenging and sensory seeking behaviours are often reduced with the application of deep pressure. Made from anti-bacterial neoprene.

ELIGIBLE FOR VAT EXEMPTION

DPV05BLK	Small	Age 3-7 years	£45.95
DPV10BLK	Medium	Age 7-14 years	£49.95
DPV20BLK	Large	Age 14 years+	£53.95

Weighted Compression Vest

Weighted deep pressure vest is made to calm and provide steady proprioceptive input, as the combined pressure and weight functions as a reassuring deep hug.

Made of neoprene, the vests are designed for comfort with soft mesh material on the sides to increase air flow and ventilation.

Weights are safely positioned in pockets inside the vest and can be added or removed.

- WCV01 - Chest size XXS 22 to 25 ins/Age 2-3 £62.95
- WCV02 - Chest size XS - 23 to 29 ins/ Age 3-5 £64.95
- WCV03 - Chest size S - 26 to 33 ins / Age 5-9 £66.95

Wrist / Ankle Weights

£19.95

A pair of wrist/ankle weights for proprioceptive input. Small - each weight 150 grams and is 23 cm long. Large - each weight 250grams and 28cm long

Weighted Cap

£21.95

Weighted Cap weighing 270 grams. Weight sewn into the rim for sensory input and comfort. One size (age 5 yrs to Adult)

Shoulder wrap LPP08SWB

£35.95

Shoulder wraps apply calming deep pressure to the shoulders making them ideal for use in the classroom, at reading time, at the table, in the car etc. 800grams.

Tactile Weight Bags

YWT05WBB

£15.95

So many uses for these Weighted Tactile Beanbags and so many textures to explore! Each set contains 5 beanbags in 5 different textures.

Anti Burst Sensory Peanut Balls

Peanut Balls are a great therapy tool to help develop balance and coordination. The shape of the ball makes it more stable than a gym ball (the ball will only move forwards and backwards) helping to develop confidence as well as balance, co-ordination and core strength. Use in therapy or as a fun play item for sensory seekers.

Our own range of Peanut Balls come in a range of sizes, are CE marked and Anti Burst. Bull discounts available - please call for details

The maximum diameter is the height of the ball (on its side) when fully inflated. The ball will still function when not inflated to the maximum but will be slightly softer and slightly smaller.

What size? To determine your ideal size measure from the armpit to the tip of the fingers. This should correspond to within 5cm of the size ball required.

Code	Max Ball Diameter	Ball length	Price
PNA4OYEL	40cm (Yellow)	80cm	£19.95
PNA5OORA	50cm (Orange)	95cm	£23.95
PNA6OGRE	60cm (Green)	115cm	£29.95
PNA7OBLU	70cm (Blue)	135cm	£34.95

Prices exclude VAT

Junior Wedge Cushion 26cm

£12.95

Junior tactile wedge cushion to help improve posture, provide sensory feed back and calm fidgeters, helping children to remain focused for longer.

Sensory Wobble Cushion 35cm

£12.95

Dynamic air cushion that encourages correct posture to help concentration. Can be used to sit on a chair, on the floor or to stand on the develop balance. Easy to inflate. Measures 35cm

Senior Wedge Cushion 35cm

£16.95

Large Tactile wedge cushion to help improve posture, provide sensory feed back and calm fidgeters, helping to remain focused for longer.

Large Wobble Cushion 45cm

£20.95

Large Wobble Cushion. Use on a chair or on the floor to sit or stand on to practice balance, build core strength and promote correct posture.

Body Sock

Our 4 way stretch lycra 'body sock' is an allround movement, proprioceptive, tactile, and deep pressure experience. An essential part of any sensory diet to reinforce resistive awareness and encourage creative movement

Once inside, the stretchy material gently resists your movements encouraging experimentation. Resistant walls provide a tactile means of self-referencing that improves body awareness, and assists in developing spatial awareness through balance and resistance

Available in 3 sizes :

- Small : 100cm long x 60cm wide (opening 60cm) - suitable for children 1.1m to 1.4m tall £27.95
- Medium : 120cm long x 68cm (opening 63cm) - suitable for children 1.3m to 1.6m tall £29.95
- Large : 145cm long x 70cm wide (opening 65cm) - suitable for children 1.6m to 1.9m tall £32.95

Resistance Loop

The Resistance Loop is circular piece of lycra that can be used on the floor or a chair to help children who fidget and find sitting still for any length of time a challenge.

The child effectively sits inside the loop (with head popped out of the top) and then they can use 4 way stretch material to provide resistance to arms and legs. Place over a chair the loop child can push their legs and feet against the loop satisfying the desire to swing their legs, wriggle or shift around in their seat. Can also be used on the floor at circle time to aid concentration and reduce fidgeting.

Available in Blue, Red & Green. Comes complete in a with a hanging, storage bag.

- Small : 70cm long x 36cm wide (opening 26cm at each end) £26.95
- Medium : 80cm long x 46cm (opening 33cm at each end) £29.95
- Large : 100cm long x 60cm wide (opening 43cm at each end) £32.95

Bean Bags

Our Bean Bags are made from a water resistant, fire retardant fabric (to Crib 5) making them ideal for use in schools, medical establishments and other environments where a higher fire retardancy rating is required.

They can also be left outside in all weather!

We sell a range of styles and sizes to suit all environments all at very reasonable prices making them great value for money.

Indoor Swing Set - 4 piece combo set

£179.95

Swinging heightens the body's vestibular system and body awareness, sending positive signals to the brain. Helps the sensory seekers calm down and centre their bodies.

The 4 piece combo kit offers great value for money and contains :

- Support bar
- Strap swing (holds upto 7 stone)
- Trapeze bar (holds upto 7 stone)
- Net swing (holds upto 12 stone)

This unit fits almost any doorway (29" to 36" in width) - easy to set up and safe to use.

This package is a great solution for children that need to release energy while indoors. If it's rainy or snowy outside, swinging is still an option! All you need is a doorframe!

The Strap Swing allows your child to swing back and forth. This helps to build muscle tone and also provides vestibular input to your child's body.

The Net Swing is cradles and gently rocks the body which can have a calming effect on your child. The Trapeze Bar can be used in two ways: just the bar, or the bar and the handles together. The Trapeze Bar allows your child to hang upside down to get a different level of input. It is also a great way to build muscle tone.

Net Swing & Support Bar

£129.95

The Indoor Net swing and support bar allows your child to have a relaxing, calming swing in complete safety - whatever the weather. The net stretches to fit any child or adult (upto 12 stone in weight). The Net can be used in a prone or sitting position. It cradles and puts pressure on the child's sides so they feel safe and secure, giving total body support and even pressure. Use for swinging, lounging, or reading a book.

The support bar can also be used to attach all other attachments in the Playaway range. The Bar can be purchased separately for £74.95

Playaway Glider

£119.95

The One Seated Glider is a swing that works on increasing muscle strength of the arms, legs, and stomach while your child concentrates on having fun! It also takes coordination of the legs and arms to get the pumping action mastered to get the swing moving. Maximum weight 5 stone / 55lbs / 25kg

Fits easily onto the Playaway Support bar which can be mounted in any doorway (sold separately). Age 3-10 yrs

2 in 1 Platform Swing

139.95

The platform swing enables parents and therapists to work with children on vestibular orientation, linear acceleration, balance reactions and motor planning. Children can swing in prone, kneeling or standing position. A great swing to teach balance skills, provide instant vestibular stimulation and work on postural adjustments. Use as a Platform swing when attached to the Support Bar (sold separately) or remove the detachable bars and use it on the floor as a spinning board.

Chewbuddy Sensory Chew

Children with autism or other special needs often have a need to chew - they might start with their hands, their shirt, or other handy item, but eventually, parents realise that it is probably safer, cleaner, and more purposeful for their child to have specific items for chewing.

We wanted to create a chewy product for kids that was also fun to fidget with and came up with the chewbuddy in the shape of a stick man!

- A safe alternative to chewing on fingers, cuffs, pencils and toys.
- A oral tactile fidget toy for sensory seekers craving proprioceptive feedback
- Made from medical grade, FDA approved material, with NO phthalates, PVC, BPA, or latex.
- Can be sterilised or cleaned by popping in the dishwasher
- Class 1 Device as regulated by the Medicines and healthcare products Regulatory Agency (MHRA) and CE approved

Available in Blue, Red, Green & Purple - all colours come with a safety lanyard included

Pack Size	Colours	Product code	Price
Single Chewbuddy + lanyards	Blue/Red/Green/Purple	CBD01 BLU/RED/GRE/PUR	£7.49
Pack of 2 Chewbuddies + lanyards	Blue/Red/Green/Purple/Mix any 2	CBD03pack2	£11.95
Pack of 4 Chewbuddies + lanyards	Blue/Red/Green/Purple/Mix any 4	CBD05pack4	£19.95
Pack of 10 Chewbuddies + lanyards	Blue/Red/Green/Purple/Mix any 10	CBD10pack10	£45.95

WARNING: Whilst the Chewbuddy has great bite resistance it is not indestructible and the Chewbuddy 1 is not

Chewbuddy Tubes

New multi functional Chewbuddy Tubes made from medical grade material. Can be used as :

- a chewy pencil topper for those that like to chew and mouth pencils and pens
- a pencil grips to help handwriting and pen control
- hood toggles for those that chew clothes and cords
- a chewy necklace when put on a safety cord or lanyard

Fits all standard pens and pencils. - helps boost concentration and focus.
Available in Blue, Red, Green & Purple

Pack of 2 (one smooth / one knobby)	£4.95
Pack of 4 (two smooth / two knobby)	£7.95

Chewbuddy Super

A chewy for more aggressive chewers - quite possibly the strongest special needs chew on the market.

Measuring 8cm across the Chewbuddy Super Oral Motor Chew is made from a solid piece of medical grade material with raised ridges and dimples add texture for additional sensory input.

Available in Blue, Red and Green.

Each chewy comes with a detachable safety lanyard allowing it to be worn around the neck.

£8.95 each - 15.95 pack of 2 - £28.95 pack of 4 - £64.95 pack of 10

Z Vibe Oral Motor Tool

£28.95

Z Vibe Grabber Oral Motor Tool

£30.95

VAT Exemption

Prices quoted in this brochure exclude VAT, however many of the items we sell qualify to be VAT free (zero rated) provided they are being purchased by, or on behalf of someone who has a condition such as Autism, Aspergers, SID etc . You do not need a diagnosis or statement or special education needs - you simply need to declare that the goods are being for “personal or domestic use”. You can fill in the VAT exemption declaration on our website on checkout or download the form from our website.

Charities qualify for VAT exemption where these conditions are met, however schools and homes may not qualify as the goods are not for domestic use, however they may be able to reclaim the VAT from Customs & Excise. If your organisation qualifies please download and complete the VAT exemption declaration form below and send this with your order. For more details visit www.hmrc.gov.uk.
