An upward trend is observed for single-cup brewers over the last year. Generally, with the price of goods and services increasing due to inflation, single cup brewers are seen as a less wasteful alternative.

DISCOVER WHY WORKPLACES PREFER FLAVIA®

DESIGNED FOR NO CROSS CONTAMINATION

FLAVIA brewers use the unique Freshpack system that brews your drink direct from pack straight into your cup.

Designed for no taste, allergen, or contaminant transfer.

With some brewers, drinks flow through the same funnel inside the brewer, leaving residue and used grinds that can cross over from drink to drink.

SUSTAINABLE

100% of all FLAVIA® Freshpacks can be recycled through TerraCycle®.

Our West Chester, Pennsylvania campus is LEED Gold Certified.

LOW MAINTENANCE

The average time between required service calls is 155 weeks...close to 3 years.*

* FLAVIA CS00 2018 data from UK where we service machines directly.

LOW PILFERAGE = LOWER COSTS FOR YOUR WORKPLACE

40% of U.S. office managers are aware of pilferage in the office.*

* "Usage and attitudes" Third Party Study with 1,004 Decision Makers, March 2019

26% of US decision-makers say that pilferage in the office is a problem and hinders me from offering even more than I currently do.*

* "Usage and attitudes" Third Party Study with 1,004 Decision Makers, March 2019

has a clear competitive advantage compared to Keurig because we do not have a pilferage issue. Our brewers are made only for the workplace.
